de-DE-Ruhrgebiet: Erklärung zu möglichen Interessenskonflikten

Declaration of Possible Conflicts of Interest

The author is a regular worker from Germany — even if these days it's sometimes a suit instead of a work jacket. This text comes from personal research and reflection. Conflicts of interest? Maybe job stress and tax bills — no lobbying, no sponsorship, no backroom deals. **Otherwise: independent.**

Any *"conflicts"* are limited to the personal burdens that arise from going to work every day and paying taxes as a citizen of the Federal Republic Germany.
